

Diversity and Inclusion in the Workplace

Diversity is all around us: where we work, live and play. We see this cultural diversity reflected through race and ethnicity, language, (dis)ability, age, sexual orientation, gender and gender identity, socio-economic status and so on.

This full-day workshop will help you increase your self-awareness about diversity and identify ways you can enhance cultural sensitivity in your work, community and family life.

Learning Outcomes:

- Define aspects of culture and diversity.
- Reflect upon your personal experiences with inclusion and exclusion.
- Discuss elements of culture and diversity, and how they impact you and your workplace.
- Understand how your own personal diversity may contribute to power and privilege.
- Understand the impact of stereotypes and biased statements, even when casually said.
- Identify personal actions for enhancing cultural sensitivity in your workplace.
